

Estate Inspections

We want to work with you to improve the quality of the estate where you live. To do this we arrange a series of estate inspections, where we will invite you to come out and have a walk around the estate with us. You can identify local issues that are causing concern to you. This can be anything from overgrown gardens, dog fouling, abandoned cars, and graffiti to the dumping of rubbish.

There may be some bigger jobs, which we may not be able to put right immediately but many minor issues can be addressed and we will feedback on all of the things that you point out.
